TO: Honorable Board of Supervisors

By Maryellen Peters, Director Risk Management

RE: Rejection of CSAC-EIA proposed amendment

Action: Approve Risk Management recommendation to reject CSAC-EIA proposed amendment to the JPA bylaws to restructure the EIA and include CPEIA public agencies in California as voting members of the CSAC-EIA.

Background: The Excess Insurance Authority (EIA) was formed in 1979 by CSAC to address the inability of Counties to obtain insurance coverage in the marketplace. EIA is independently operated, however counties must maintain membership in CSAC to participate in the EIA. In 2001 the EIA created a second insurance pool called the CPEIA, this pool membership was made up of public entities that are not counties and satisfy the EIA underwriting requirements.

CSAC-EIA currently has 249.3M in gross written premiums and is the largest public entity insurance pool in the country. The non-county entities are 92.4 M or one third (1/3) of the gross premiums. There are 206 CPEIA members that generate that premium and 62 are county related or affiliated entities.

The EIA staff is requesting an amendment to restructure the JPA. EIA staff and some members believe this would financially strengthen the EIA due to increased premiums. The premium would increase the pooled layer of Coverage, and reduce dependency on the Excess insurance market. In addition it will streamline administration of the insurance programs, and increase retention among the non-county members.

Recommendations: Risk Management has reviewed the materials supplied by the EIA and recommends rejection of the amendment to the bylaws of the JPA agreement that would allow non-county entities (CPEIA) to be voting members on the executive committee, and receive seven (7) voting and three (3) alternate members on the EIA Board of Directors or 11.5% of the votes.

The EIA was created as a homogeneous group to purchase and pool funds for insurance coverage with other counties, because we have similar risks and size. Los Angeles County and San Francisco County have historically been excluded due to size, and complexity of liability and poor loss ratios.

The two Workers Compensation Pools generate more than half the gross written premium. By adding public agencies with multiple risks not shared by the counties we are increasing risk exposure and experience. Even though we will increase membership and premium volume that will leverage our purchasing power, along with that revenue comes increased potential for losses and poor claim experience. The restructure will re-define the dependency on non-county members and premium volume thereby causing a priority shift within the EIA from Counties to non-county.

Additionally the continued growth of the current EIA/CPEIA has negatively affected our service from EIA's broker Driver Alliant. To date 12 counties have approved the amendment of the 54 EIA members. A majority of 36 approvals is required to pass the amendment.

Fiscal Impact: There is no immediate financial impact to Placer County with the rejection of this amendment. If the amendment is approved the County may face increases in insurance premiums due to exposure to additional risk and experience costs.
